CHRISTMAS

WHAT IS THIS YEAR'S PRESENT OF THE YEAR FROM EVA SOLO?

FUNCTIONAL AND EXCLUSIVE DESIGN PRODUCTS FROM EVA SOLO

We have existed for more than 100 years, and in that time the idea behind giving presents has not changed significantly – and nor have our core values. This year's Christmas catalogue contains a wide range of different products – new and classic.

Our starting point was functional, high-quality kitchen utensils. When, more than half a century ago, housewives became working women with very busy lives, we were quick to develop utensils that made the housework easier. Throughout the 1970s, open-plan kitchens caught on, and we were the first to launch kitchenware that was stylish enough to be left on display.

Today, we have developed into a modern, innovative and international design company, but we have never forgotten our past – functionality, quality and good design are still our guiding principles.

So regardless of whether you go for an Eva Trio saucepan or our new MyFlavour carafe, you will be giving a present that epitomises these three qualities – qualities of which we are proud and which appeal to many. Finally, all our products are, of course, supplied in a smart gift bag!

Kind regards,

Eva Solo A/S
